

Yamaha DS6C Scrambler

Yamaha DS6C Scrambler

The 1969 Yamaha DS6C Scrambler is a testament to Yamaha's innovative engineering during the late 1960s. Based on the DS6 sport model, the DS6C was designed as a scrambler variation, featuring a sporty high-mounted muffler and an engine guard. Powered by a 246cc air-cooled, two-stroke, parallel-twin engine, this scrambler delivers 30 horsepower at 7,500 rpm, offering a lively and engaging ride. In 1969, Yamaha was at the forefront of the sport, trail, and scrambler market, and the DS6C quickly became one of the brand's top representatives in the segment.

With only 4637 km on the clock, this DS6C remains in excellent condition and comes with Belgian registration papers, making it a rare find for collectors and vintage motorcycle enthusiasts.

With years of experience in sourcing and restoring classic motorcycles, we take pride in offering well-preserved examples of motorcycling history. This Yamaha DS6C Scrambler is more than just a bike—it's a piece of Yamaha's legacy. Whether you're a collector or a classic motorcycle enthusiast, this DS6C is a unique opportunity.
